

Immucor Transplant...  
*For a Lifetime.*

## STOP BY BOOTH 19A

Immucor, a world-class leader in transplant diagnostics, invites you to learn more about our total solution in pre- and post-transplant monitoring:

- **MIA FORA® NGS FLEX HLA TYPING ASSAY**, provides comprehensive coverage of up to 11 HLA genes
- **LIFECODES® LSA CLASS I AND II SINGLE ANTIGEN ASSAYS**, new enhanced features and refined calculation
- **LIFECODES® C3d**, complement detection optimized with our LSA assays
- **kSORT**, a non-invasive, accurate and precise molecular gene expression blood test for post transplant surveillance of renal transplant patients

Meet our team of experts and discover how Immucor can deliver the accuracy your patients deserve.

## JOIN US for our luncheon symposium

Sunday 24th September | 13:00-14:30  
Room 118/119 Level P1 of CCIB | 1st Floor
